Cabinets

With 24 years of experience in VIP and VVIP completions, Luminary Interiors can handle all aspects of cabinetry design, engineering, production, installation and certification. From conference rooms, offices and bedrooms to galleys and lavatories, our extensive industry expertise combined with skilled workmanship ensure high quality results delivered on time.

Notable achievements in aircraft cabinetry fabrication include:

- Accomplished a complete refinishing program on an Airbus A319 in 28 days, including reassembly
- Fabricated, covered, finished, and installed the largest motorized monitor lift in service on an Airbus A320
- Refurbished several Global Express and Gulfstream platforms (GIII thru G550)
- Completed numerous modifications and repairs on all Boeing airframes

With a dedicated staff of design, mechanical, electrical, structural and aerospace engineers along with DER and DAR professionals, Luminary Interiors not only intimately understands the modification and completion industry from the executive to the production level,

but also has experience with special challenges in engineering and aircraft modification. Our Program Management Office has over forty years of combined aircraft experience directing and managing various complex interior installations, engineering changes and evaluations, and maintenance. All

manufacturing work is performed at our facilities in Melfa, VA and Richmond Hill, GA.

Seating and Upholstery

Luminary Interiors offers high quality upholstery and refurbishing services for aircraft seating of all types, including VIP and head of state aircraft, business, military and tactical aircraft, commercial, and vintage aircraft.

We use only the finest quality upholstery and build-up materials in our products, and since we perform all of our work in-house, we control the process from start to finish.

With in-depth experience in the aviation and aerospace industries, Luminary Interiors delivers an unrivaled level of quality, while maintaining strict adherence to manufacturer's specifications and industry certifications.

*No matter what you're flying, where, or when,
 Luminary Air Group has you covered.*
